

Dancing our Way into Synergy

Newsletter - July 06th, 2005

Hello Everyone!

I'm getting out of my cave!

My quest in life has always been to share information that would assist others to gain more stability of mind through a better and clearer understanding of themselves and of what they live.

Two years ago, after fifteen years of working as a therapist, traveling and presenting workshops, I decided to gather my information along with my observations and write a book. I did not realize that the writing process would bring me to delve deep inside myself and challenge all of my beliefs and convictions, taking them apart one by one. I began to write a book about consciousness, choice and creativity and lo and behold, I discovered separation, unconsciousness and the grand illusion that we all live as our reality...

My greatest gift in writing this book has been to experience the rebirth and expansion of my Atlantean work. After what seemed to be an eternity of questioning the significance and purpose of the Atlantean language and the "why me", I came to clearly recognize my Atlantean background as being at the basis of my work as an author, a teacher and a therapist. The writing of this book brought me full circle into the realization of the profound correlation between the Atlantean Language, the Atlantean teachings, and the revelations introduced in my upcoming book.

This incredible information has answered so many of my questions as it brought such clarity and understanding to so many "WHYS"... to what I see and live everyday and the purpose it serves.

After a year and a half of intense writing with my co-author Elise Divay, the third draft of this book has finally made it into editing. I wish to extend my deepest appreciation to all who have assisted me through the writing of this book. Your timely words of encouragement and support have carried me through the most difficult passages. Thank you all so very much... I can now get out of my cave, start traveling again and share this life-changing information.

Future workshops on this new material are currently being organized and will be available soon.

ATLANTEAN THERAPY SESSIONS INCLUDE:

- **A treatment in the Atlantean Language.**

This Atlantean treatment is channeled and unique to each individual as it totally supports and compliments the counseling session. The vibration of the words, the sounds of the toning and chants communicate with every cell of your being as hand movements work at breaking down and releasing mental blocks around physical and emotional issues.

Through the 15 years of offering Atlantean therapy sessions to adults, teenagers and children, they have proven to be very effective in relieving stress, anxiety, depression and pain and have also assisted in stabilizing serious mental or physical issues. As your mind understands, your body relaxes, allowing you to live in peace, centeredness and stability.

- **An informative and empowering counseling session based on the Ancient Atlantean Teachings.**

"The illusion is not in what we live but in how our mind perceives it"
